TRANSFORMING VISION INTO REALITY

Leading the Future of
Extraction & Distillation
Plant Manufacturing

www.mechotech.in

Quality and
Innovation in one package

At **MECH O TECH**, we are at the forefront in Manufacturing of Process equipment with innovation in Extraction and Distillation technology. Our state-of-the-art solutions set new benchmarks for purity, efficiency, and performance, ensuring the highest quality results. Discover how our advanced systems are shaping the future of your industry.

About Us

We are delighted to introduce MECH O TECH LLP, a pioneering force in the field of extraction and processing solutions, situated in the city of Hyderabad, India. As manufacturers of a diverse range of cutting-edge equipment, we specialize in providing high-quality Herbal Extraction Plants, Oleo Resin Plants, Floral Extraction Plants, Natural Colour Extraction Plants, Gums and Resins Extraction Plants, Nutraceutical Extraction Plants, Phyto Chemicals Extraction Plants, Aromatic Oil Distillation Plants, Spice Oil Distillation Plants, Floral Distillation Plants, and Fruits and Vegetables Dehydration Plants and Food Processing Plants as a Turn key projects.

MECH O TECH is your go to source for cutting edge equipment, machinery and expert services. We specialize in crafting a wide array of Extraction and Distillation solutions to industry needs.

Our comprehensive Extraction line includes Batch type, Rotary type, Continuous type extractors. And Distillation line includes Steam Distillation, Hydro Distillation with Cohibation system, Vacuum Distillation, Pressure Distillation. We are committed to providing tailored designs and various capacities, ranging from 5 kg to any commercial scale.

Our Visionary

Led by our esteemed CEO, **Mr. Srinivasa Rao**, who brings with him an extensive 30 years of experience in the industry, Combined with the expertise of our Engineers and Technicians, each boasting more than 15 years of experience, we are dedicated to delivering high- quality reliable solutions. MECH O TECH LLP stands as a symbol of innovation, excellence, and reliability.

Under his leadership, we have earned a reputation for delivering state-of-the-art solutions that cater to the evolving needs of our clients.

OUR INFRASTRUCTURE

Our commitment to quality is reflected in our 1.5-acre infrastructure, equipped with the state of the art latest and most advanced machinery and precision Tools to ensures the quality and efficiency of our production processes but also allows us to stay at the forefront of technological advancements.

At **MECH O TECH LLP**, we believe in setting industry standards rather than merely meeting them. We pride ourselves on specializing in Bulk Drugs, Pharma Equipment, boasting an exceptional erection and commissioning team that operates round the clock. Our commitment to excellence is further emphasized by our 24 x 7 service team, providing support and assistance to our valued clientele all over the world.

Our product range is designed to meet the demands of a variety of industries, including **Pharmaceuticals, Cosmetics, Food and Beverages**, and more. Whether you are looking for solutions in **Herbal Extraction, Oleo Resin production, or the distillation of Aromatic Oils**, **MECH O TECH LLP** has the expertise and resources to provide tailored solutions that align with your business objectives.

As a customer-centric organization, we prioritize building long-lasting relationships based on trust, transparency, and mutual success. At Mech o Tech LLP, we don't just sell products; we offer solutions that empower your business to thrive.

MECH O TECH
TRANSFORMING VISION INTO REALITY

SHAPING THE FUTURE WITH PRECISION

EMPOWERING INDUSTRIES WITH CUTTING-EDGE EXTRACTION AND DISTILLATION TECHNOLOGY FOR A BRIGHTER FUTURE

At **MECH O TECH LLP**, we redefine the future of extraction and distillation technology with a blend of innovation, precision, and sustainability. With over 30 years of expertise, we provide industry-leading solutions that transform natural resources into high-quality extracts with unparalleled efficiency.

Extraction Plants

- **Tailored Designs:** Customizable extraction equipment to suit diverse industry needs, ranging from lab-scale (5 kg) to commercial-scale (20 TPD) capacities.
- **Versatile Applications:** Capable of extracting a wide range of herbal components, including Phytochemicals, Gums, Resins, and Alkaloids.
- **Advanced Technology:** Offers Batch Type, Rotary Type, and Continuous Type Extractors, ensuring high efficiency and precision.
- **Quality Assurance:** Our solutions are designed to deliver high-quality extracts for herbal products, oleo resins, floral concretes, and natural colors.

Distillation Plants

- **Comprehensive Solutions:** Specialized distillation plants for Aromatic Oils, Spice Oils, and Floral Essences, each designed for optimal performance.
- **High Purity Extraction:** Fractional distillation technology ensures superior quality aromatic oils like Lemongrass, Mint, and Citronella.
- **Field Level Flexibility:** Offers Field Level Distillation methods including Steam, Hydro, and Combined, adaptable to various aromatic crops and materials.
- **Robust Infrastructure:** State-of-the-art facilities and a dedicated erection and commissioning team ensure reliable and uninterrupted operations.

As the founder of **MECH O TECH LLP**, my vision is to lead the industry with innovative solutions that not only meet our clients' needs but also set new standards for quality and sustainability in extraction and distillation technology."

— Mr. Srinivasa Rao K

EXTRACTION PLANTS

ALKALOIDS EXTRACTION PLANTS

Alkaloids, extracted from various plants, find extensive applications in pharmaceuticals, medicine, agriculture, and research. These compounds possess diverse pharmacological properties, but many can be toxic if consumed without proper caution.

These facilities play a crucial role in extracting alkaloids efficiently while prioritizing safety and compliance. Their work supports the development of medications, agricultural products, and scientific advancements, contributing to various industries' progress and innovation.

NICOTINE SULPHATE EXTRACTION PLANT

A nicotine sulfate extraction plant plays a crucial role in the production of nicotine for various industrial and commercial applications, ensuring that the extracted nicotine meets quality standards and regulatory requirements. Additionally, environmental considerations are important in the operation of such facilities to minimize waste and pollution.

Our Nicotine Sulphate Solvent Extraction Plant is strategically located to ensure easy access to raw materials and efficient distribution. The facility is equipped with advanced machinery, automated processes, and a dedicated team of experts to ensure precision and consistency in the production of nicotine sulphate.

MECHOTECH
TRANSFORMING VISION INTO REALITY

SOLVENT EXTRACTION PLANTS

Unlock the essence of nature with Mechotech's cutting-edge technology, expertly extracting **pure and potent Extracts**. Our meticulous process captures the true essence of botanicals, delivering unparalleled quality and

HERBAL EXTRACTION PLANTS

BATCH TYPE EXTRACTORS

ROTARY TYPE EXTRACTORS

CONTINUOUS TYPE EXTRACTORS

CO₂-BASED EXTRACTORS

ULTRASONIC EXTRACTORS

We facilitate the extraction of various Herbal components such as **Phytochemicals, Nutraceuticals, Gums, Resins, Alkaloids** and many more.

OLEO RESIN EXTRACTION PLANTS

Our specialized plants extract high-quality oleo resins from a wide range of spices including **CINNAMON, CUMIN, CORIANDER, FENUGREEK, NUTMEG, GINGER, GARLIC, CARDAMOM, BLACK PEPPER, CURCUMIN, CLOVES, RED CHILI**, and many others.

These plants are customized to deliver premium extracts, ensuring top-notch quality for all spice varieties.

MECHOTECH
TRANSFORMING VISION INTO REALITY

FLORAL CONCRETE & ABSOLUTE EXTRACTION PLANTS

Discover the essence of flowers with our cutting-edge extraction plants. We specialize in extracting floral concrete and absolutes from a variety of flowers including KEWDA, CHAMPA, JASMINE SAMBAC, JASMINE GRANDIFLORUM, ROSE, TUBEROSE, FRANGIPANI, MIMOSA, PINK LOTUS, and more.

Experience the essence of flowers with our **state-of-the-art floral extraction plants**.

PROTIEN EXTRACTION PLANT

The extraction of proteins from plant cells commonly employs techniques utilizing either aqueous or organic solvents. These methods are crucial for isolating proteins from diverse sources such as **PEAS, SOYBEANS, FABA BEANS, LENTILS, AND CHICKPEAS**.

They employed techniques including alkali and aqueous extraction methods to extract proteins efficiently.

These methods are crucial for obtaining high-quality protein extracts from plant sources, which can be used for various applications including food, pharmaceuticals, and cosmetics.

By utilizing these extraction techniques, researchers aim to harness the nutritional and functional properties of plant proteins, contributing to the development of sustainable and healthy products.

NATURAL COLOUR EXTRACTION PLANTS

We specialize in natural color extraction plants tailored for a variety of sources including **ANNATTO SEED, MARIGOLD, CARROT, BEETROOT, TURMERIC, MADDER, HIBISCUS**, and more.

Our state-of-the-art machines are meticulously designed to extract vibrant and pure natural colors for various applications. Whether you need rich hues for food, cosmetics, or other products, our extraction plants ensure consistent quality and potency from nature's palette.

MECHOTECH
TRANSFORMING VISION INTO REALITY

GUMS & RESINS EXTRACTION PLANT

A gums and resin extraction plant is a facility designed for the extraction of natural gums and resins from various plant sources. Gums and resins are exudates produced by certain plants, often as a response to injury or environmental stress, and they serve various purposes such as protection, wound healing, and sealing.

The extraction plant employs modern technology and processes to efficiently harness these valuable natural resources while ensuring sustainability and environmental responsibility.

PHYTOCHEMICALS EXTRACTION PLANTS

We specialize in operating photochemical extraction plants, which extract bioactive compounds produced by plants for their defense and protection.

Our extraction process ensures the preservation of these valuable bioactive compounds, which possess various health benefits and medicinal properties.

By harnessing the power of nature, we deliver high-quality photochemical extracts that can be utilized in various industries including pharmaceuticals, nutraceuticals, and cosmetics.

SHILAJIT EXTRACTION PLANT

A shilajit extraction plant is a specialized facility designed to extract, process, and produce premium-quality shilajit extracts. These plants are equipped with advanced infrastructure and specialized equipment tailored for the extraction process.

The extraction process ensures the preservation of shilajit's potent bioactive compounds, offering high-quality extracts.

With state-of-the-art technology and rigorous quality control measures, these plants ensure the consistency and purity of the extracted shilajit. The facilities adhere to stringent standards to meet the demands of the market and uphold the integrity of shilajit-based products.

DISTILLATION PLANTS

AROMATIC OIL DISTILLATION PLANTS

Field Level Distillation, Steam, Hydro, Pressure, Vacuum and Combined with Cohibation System.

- ◉ **Leaves & Grasses:** Lemon Grass, Palmarosa, Citronella, Geranium, Davana, Patchouli, Eucalyptus Citronella, Basil, Mint, Turmeric leaves, Beetal Leaves, Rosemary etc.,
- ◉ **Roots:** Vetiver, Ginger, Turmeric rhizomes, Nagarmotha etc.,
- ◉ **Bark, Stem and Wood:** Sandal wood, Agar Wood etc.,
- ◉ **Spices:** Black pepper, Cinnamon barks, Cinnamon Leaves, Clove Buds, Nutmeg, Cardamom, Curry Leaves, Garlic etc.,
- ◉ **Flowers:** Rose, Jasmine, Kewada, Tuberose etc.,
- ◉ **Gums & Resins:** Frankincense, Myrrh

We offer distillation solutions for a wide range of aromatic materials, ensuring the highest quality essential oils.

SPICE OIL DISTILLATION PLANTS

Spice up your senses with Mechotech's expertise in extracting premium spice oils. Our advanced technology ensures the preservation of **Robust Flavors**, providing a culinary experience that embodies the **essence of each spice**.

*We are a leading Manufacturer of **BLACK PEPPER SPICE OIL DISTILLATION PLANT, GINGER SPICE OIL DISTILLATION PLANT, CINNAMON SPICE OIL DISTILLATION PLANT, NUTMEG OIL STEAM DISTILLATION PLANT, TURMERIC LEAF OIL DISTILLATION PLANT AND TURMERIC OIL STEAM DISTILLATION UNITS** from Hyderabad, India.*

MECHOTECH
TRANSFORMING VISION INTO REALITY

FLORAL DISTILLATION PLANTS

Our floral distillation plants offer various capacities, from 100 kg to 1000 kg, catering to diverse needs. Each plant is meticulously tailored to match the specific requirements of our clients. We specialize in customization, ensuring precise alignment with our clients' unique specifications. For higher capacities beyond 1000 kg, we provide bespoke solutions to meet even the most demanding needs.

Our goal is to deliver efficient and effective extraction solutions for floral essences of exceptional quality

FRANKINCENSE DISTILLATION

Frankincense distillation is a method to extract essential oil from the resin of frankincense trees, such as **BOSWELLIA SACRA**, **BOSWELLIA CARTERI**, AND **BOSWELLIA FREREANA**.

This resin, also known as **olibanum**, is acquired by making cuts in the tree bark, causing the resin to ooze out and solidify into teardrop-shaped droplets. Through the distillation process, these resin droplets are transformed into potent essential oil, prized for its aromatic and therapeutic properties.

MYRRH DISTILLATION

A Myrrh distillation plant processes myrrh resin through distillation to extract essential oils and other components.

These facilities are equipped with distillation units, condensers, separators, and storage facilities.

The process involves heating the myrrh resin to release volatile compounds.

These compounds are then condensed back into a liquid form for collection.

Myrrh distillation plants are crucial for producing high-quality Myrrh extracts used in various applications.

INDUSTRIAL DRYERS

Vacuum Tray Dryer

Vacuum Tray Dryers are commonly used in industries such as pharmaceuticals, chemicals, food processing, and electronics manufacturing, where the product's quality may be compromised by exposure to high temperatures or oxygen-rich environments.

Rotary Cone Vacuum Dryer

The rotary cone vacuum dryer is an innovative system designed to efficiently blend, dry, and refine raw materials, resulting in superior products. Its seamless operation ensures optimal processing, making it ideal for the creation of premium-grade food products and cosmetics. By utilizing vacuum technology, this dryer facilitates rapid drying while maintaining product integrity.

Its rotary motion enhances mixing and ensures uniform drying, leading to high-quality end products. Whether used in pharmaceuticals, food processing, or cosmetics industries, this dryer is essential for achieving precise and consistent results.

Stainless Steel Spray Drying Plant

Our stainless steel spray drying plant offers versatility and efficiency, making it ideal for various industries including pharmaceuticals, chemicals, and food. Its robust construction ensures durability and reliability, while its advanced design allows for precise control and consistent performance.

This plant is indispensable for achieving high-quality powdered products through the spray drying process.

Pilot Scale Spray Dryer

Our pilot scale spray dryers, offered by Mechotech, are crafted for research and development purposes as well as small volume production.

Designed meticulously to cater to R&D and product development needs, they are ideal for efficiently converting liquid substances into dried powders.

Mechotech's range ensures precision and reliability in small-scale production processes, providing an effective solution for various industries.

Rotary Vacuum Dryer

The Rotary Vacuum Dryer by Mechotech provides a straightforward and efficient solution for drying filtered or centrifuged wet cakes, wet powders, and slurries. Operating under vacuum conditions, this dryer is particularly effective for drying heat-sensitive materials, achieving impressively low levels of Loss on Drying (LOD). Its design ensures a clean and simple process, making it ideal for a wide range of applications where precision drying is essential.

Trust Mechotech's Rotary Vacuum Dryer for reliable and high-performance drying of various materials, meeting stringent quality standards with ease.

SS Tray Dryer

Our SS Tray Dryer provides efficient drying solutions, featuring a stainless steel construction for durability and optimal performance across various applications. With its uniform heat distribution design, it ensures thorough and swift drying processes. The stainless steel construction not only enhances longevity but also maintains hygiene standards, making it ideal for diverse drying needs. Its robust build ensures reliability, while the efficient heat distribution guarantees consistent drying results.

Whether for industrial or laboratory use, this tray dryer is a dependable choice for achieving precise and efficient drying outcomes.

OUR OTHER PRODUCTS

Ribbon Blender

The ribbon blender is a highly adaptable industrial mixer equipped with a ribbon-shaped agitator, ideal for effectively blending dry powders, granules, and other materials. Its design promotes homogeneous mixing across various applications, ensuring consistent quality and uniformity in the final product. With its versatility and efficiency, the ribbon blender stands as a reliable choice for a wide range of mixing needs in industrial settings.

Paddle Mixer Machine

Optimized for thorough mixing, our paddle mixer fluidizes products through a combination of geometric lifting, triple paddle mixing, and **a stirrer rotor turning 70-80% faster than competing mixers**, ensuring unparalleled efficiency.

Basket Centrifuge

Featuring a robust construction and advanced technology, this centrifuge is ideal for separating solids and liquids in various processes..

Mechotech's basket centrifuge offers reliable performance, versatility, and efficiency, making it a valuable asset for various industrial separation processes.

Octagonal Blender

The octagonal blender is a versatile blending machine designed for efficient mixing and lubrication processes of dry granules. Its octagonal shape ensures homogeneous blending, achieving consistent results.

Ideal for various industries, this blender ensures thorough mixing for optimal product quality.
